

## SAFETY DATA SHEET (SDS)

The Thermoplastics You Need. *The Service You Deserve.***Section 1. Product and Company Identification**

|                      |   |                       |   |
|----------------------|---|-----------------------|---|
| Product Name:        | Natural Polifil® GFPPCC WS  |                       |   |
| Trade Name:          | Natural Chemically Coupled Glass Reinforced Polypropylenes (NSF/ANSI 61 Certified)                                |                       |   |
| Product Code(s):     | Polifil® GFPPCC-1005 WS, GFPPCC-2005 WS, GFPPCC-3005 WS, GFPPCC-4005 WS   |                       |   |
| Recommended Use:     | Compounded resin for molding  |                       |   |
| Restrictions on Use: | None identified   |                       |   |
| Manufacture:         | The Plastics Group of America<br>1112 River Street<br>Woonsocket, RI 02895-1825<br>Website: www.plasticsgroup.com | In Case of Emergency: | Call (401) 767-2700 or<br>Email sds@plasticsgroup.com |
|                      |   | Information:          | Call (401) 767-2700 or<br>Email sds@plasticsgroup.com |

**Section 2. Hazard Identification**

|                             |                |
|-----------------------------|----------------|
| GHS Product Classification: | Not classified |
| GHS Label Elements:         | Not applicable |
| Other Hazards:              | Not applicable |

**Section 3. Composition / Information on Ingredients**

| Name             | CAS#       | % by Weight |
|------------------|------------|-------------|
| 1. Polypropylene | 9003-07-0  | 53-87 %     |
| 2. Glass Fibers  | 65997-17-3 | 8 - 42%     |
|                  |            |             |
|                  |            |             |
|                  |            |             |

**Section 4. First Aid Measures**

|             |   |
|-------------|---|
| Inhalation: | Dust and process vapors may be irritating to the nose, throat and respiratory tract. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get Medical attention.   |
| Eyes:       | Dust, fines and process vapors may irritate the eyes. Immediately flush eyes with water for at least 15 minutes. Get medical attention.   |
| Skin:       | Exposure to molten resin may cause thermal burns. If molten material comes in contact with the skin, cool under ice water or a running stream of water. DO NOT attempt to remove the material from the skin. Removal could result in severe tissue damage. Get Medical attention. |
| Ingestion:  | No adverse health effects expected from ingestion.  |

**Section 5. Fire-Fighting Measures**

|                                   |   |
|-----------------------------------|---|
| Suitable Extinguishing Methods:   | Dry Chemical, Water Spray, Foam, Carbon Dioxide. Avoid using direct streams of water on molten burning material |
| Unsuitable Extinguishing Methods: | None known  |
| Hazards During Fire-fighting:     | Carbon monoxide, carbon dioxide, original monomer other hydrocarbon oxidation products include                  |
| Protective Equipment:             | Wear self-contained breathing apparatus and protective suit.  |

## Section 6. Accidental Release Measures

Personal Precautions: See Section 8 – Exposure Controls / Personal Protection

Environmental Precautions: Discharge into the environment must be avoided.

### Methods and Materials for Containment and Cleaning Up

Land Spill: Spilled material should be swept up and discarded. Comply with applicable federal, state and local regulations.

Water Spill: Notify local authorities if spilled in waterway or sewer. Skim from surface of water if possible.

Waste Disposal: Reclaim where possible. Dispose of in accordance with local and state regulations. This is not an RCRA hazardous waste.

## Section 7. Handling and Storage

1. Keep away from sparks heat and flame.

2. This product may react with strong oxidizing agents and should not be stored near such materials.

3. Store boxes and bags of material in areas protected with automatic sprinklers. Use proper grounding procedures.

4. Inspect handling system regularly for possible accumulation of fines. Fines can present an explosive hazard when exposed to heat, sparks and open flames.

## Section 8. Exposure Controls / Personal Protection

### Exposure Limits

1. Effects of Acute Exposures: None determined

2. Effects of Chronic Over Exposure: None determined

3. OSHA Permissible Exposure Limits: 5 mg/m<sup>3</sup> respirable dust  
15 mg/m<sup>3</sup> total dust

4. Carcinogen Potential:

- National Toxicology Program: Not listed
- I.A.R.C. Monograph: Not listed
- OSHA: Not listed

### Engineering Controls

For molten materials: Provide mechanical ventilation; in general such ventilation should be provided at compounding/ converting areas and at fabricating/ filling work stations where the material is heated. Local exhaust ventilation should be used over and in the vicinity of machinery involved in handling the molten material.

### Individual Protection Measures, Personal Protective Equipment (PPE)

Skin: Wear gloves when handling the material.

Ventilation: Adequate ventilation is recommended to minimize accumulation of fines or vapors during processing and handling.

Respiratory: Where exposure to nuisance dust may exceed acceptable levels, use NIOSH/MSHA approved respiratory protection equipment.

Eyes and Face: Wear safety glasses, face shield or chemical goggles to avoid getting material in the eyes during bulk handling. Eyewash fountains and safety showers should be easily accessible.

Protective Clothing: When handling or processing resins at elevated temperatures or in a molten state, wear protective clothing over skin to prevent contact.

Other Measures: Follow normal personal hygiene and good housekeeping practices.

## Section 9. Physical and Chemical Properties

|                                   |                       |  |   |
|-----------------------------------|-----------------------|--|---|
| Appearance:                       | Opaque pellet, solid  | Vapor Pressure:                          | Not applicable                          |
| Odor:                             | Slight to none        | Vapor Density:                           | Not applicable                          |
| pH:                               | Not applicable        | Relative Density:                        | 0.88 to 1.31 (g/cm <sup>3</sup> @ 23°C) |
| Melting Point** / Freezing Point: | 285 to 330 °F - N/A   | Solubility (ies):                        | Insoluble in water                      |
| Boiling Point:                    | Not applicable        | Partition Coefficient (N-Octanol/Water): | Not available                           |
| Flash Point:                      | >650 °F               | Auto-Ignition Temperature:               | >650 °F (estimated)                     |
| Evaporation Rate:                 | Not applicable        | Decomposition temperature:               | >600 °F                                 |
| Flammability (solid,gas):         | Not flammable         | Viscosity:                               | Not applicable                          |
| Upper Explosive Limit:            | UFL/UEL not available | Specific Gravity:                        | 0.88 to 1.35 (g/cm <sup>3</sup> @ 23°C) |
| Lower Explosive Limit:            | LFL/LEL not available | Percent Volatile:                        | Negligible                              |

\*\* Melting points will vary, depending on customer specification.

## Section 10. Stability Reactivity

|                                     |   |
|-------------------------------------|---|
| Reactivity:                         | Strong oxidizing agents   |
| Chemical Stability:                 | This material is considered a stable thermoplastic, with no chemical reactivity under normal ambient and anticipated handling conditions of temperature and pressure.                 |
| Possibility of Hazardous Reactions: | May react with strong oxidizing agents, such as chlorates, nitrates, peroxides, etc. May react with free halogens.  |
| Conditions to Avoid:                | Avoid heating above the recommended processing temperature. DO NOT heat without adequate ventilation. Avoid storage or contact with strong oxidizing agents.                          |
| Incompatible Materials:             | This material is Stable.  |
| Hazardous Decomposition Products:   | Small quantities of low molecular weight hydrocarbons, alcohols, aldehydes (incl. Formaldehyde), carboxylic acids, carbon oxides and ketones can be formed during thermal processing. |
| Combustion Products:                | The following combustion products may be generated: Carbon Dioxide, Carbon Monoxide, water vapor, and Trace Volatile Organic Compounds.   |

## Section 11. Toxicological Information

### Irritating Effects

|                  |   |
|------------------|---|
| Eye Irritation : | Solid particles may cause transient irritation from mechanical abrasion.        |
| Skin Irritation: | Not expected to cause skin irritation. Molten material may cause thermal burns. |
| Inhalation:      | Not a likely route of exposure. Process fumes may cause irritation.             |
| Ingestion:       | May cause a choking hazard if swallowed.  |

### ADDITIONAL TOXICOLOGICAL INFORMATION

When used and handled according to specifications, the product does not have any harmful effects according to research and information provided by suppliers.

### Carcinogenic effect

International Agency for Research on Cancer (IARC): Group3 - NOT classifiable as to its carcinogenicity to humans.

## Section 12. Ecological Information

|                                |   |
|--------------------------------|---|
| Eco-toxicity:                  | Toxicity to fish - No relevant studies identified.  |
| Persistence and Degradability: | This material is not expected to be readily biodegradable.  |
| Bio-accumulate Potential:      | Product is not likely to accumulate in biological organisms.  |
| Mobility in Soil:              | This product has not been found to migrate through soils.   |
| Other Adverse Effects:         | This substance is not in Annex I of Regulation (EC) 2037/2000 on substances that deplete the ozone layer. |

## Section 13. Disposal Considerations

### Disposal Methods

Product Recommendation:

1. Recycle (Reprocess) if product has not been contaminated so as to make it unsuitable for its intended use.
2. Disposal through controlled incineration or authorized waste dump in accordance with Local, State or Federal Regulations.

Uncleaned Packaging Recommendation:

1. Disposal must be done in accordance with Local, State or Federal Regulations.

## Section 14. Transportation Information

|  |                          |
|--|--------------------------|
| UN Number:   | Not relevant             |
| UN Proper Shipping Name:   | Not relevant             |
| <b>Transportation Hazard Class(es)</b>                                       |                          |
| DOT:   | Not regulated/classified |
| ADR / RID:   | Not regulated/classified |
| IMDG:  | Not regulated/classified |
| ICAO/IATA:   | Not regulated/classified |
| HS-code (Customs Tariff code):   | 3902.10.00 Polypropylene |
| Packing Group:   | Not applicable           |
| Environmental Hazards:   | Not relevant             |
| Transportation in Bulk (According to Annex II of MARPOL 73/78 and IBC Code): | Not relevant             |
| Special Precautions for User:  | No special precautions   |

## Section 15. Regulatory Information

This Material is not Hazardous by OSHA Hazardous Communication Standard 29 CFR 1910.1200

This Material is listed on the Active TSCA Inventory.

This Material is not subject to specific CERLA reporting requirements.

This Material is not subject to SARA 313 reporting requirements.

This Material is not subject to California Safe Drinking Water and Toxic Enforcement Act (Proposition 65) reporting.

Canadian Environmental Protection Act (CEPA) All substances in this product are listed on the Canadian Domestic Substances List (DSL)

Canada – WHMIS This product does not meet WHMIS classification criteria.

Hazard Material Information System (USA) Health – 1 b, Flammability – 1, Reactivity - 0

## Section 16. Other Information

Notes: No additional information
